DETAILED ACTION

Allowable Subject Matter

1. Claims 25-34 are allowed.
2. The following is an examiner's statement of reasons for allowance:
 - With respect to claim 25, the Prior Art discloses causing the current applied to a spindle motor to increase torque during startup; however, the Prior Art does not disclose increasing torque at startup to correspond to the decrease in the temperature estimate.
 - With respect to claim 26, the Prior Art does not disclose a controller that provides a series of commutation clock pulses to advance a spindle motor driver between commutation states, and wherein the controller controls commutation clock pulses to increase the torque applied to the spindle motor during startup corresponding to the decrease in the temperature estimate provided by the processor.
 - With respect to claim 32, the Prior Art discloses causing the current applied to a spindle motor to increase torque during startup; however, the Prior Art does not disclose increasing the torque at startup to correspond to the decrease in the temperature estimate.
 - With respect to claim 34, the Prior Art does not disclose providing a series of commutation clock pulses to advance the spindle motor driver between commutation states, and wherein the spindle motor controller controls timing of the commutation clock pulses to increase the torque applied during startup corresponding to a decrease in the temperature estimate.
3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the
